

Mentor / Student Covenant

Mentors: commit to a modeling and teaching relationship in which they challenge and encourage the mentee to develop their individual characteristics of becoming student leaders.

Students: commit to a relationship of learning and accountability in which they are challenged and encouraged to develop their individual characteristics of becoming a student leader.

Both Mentor and Student enter into this covenant before God and before one another, and as such, will do everything in their power to uphold the guidelines of the SALT Program of which they are actively involved.
